3. Competitor Analysis: TalentFlow AI vs Indian Platforms

Platform	Price Range (INR)	What They Provide	Why TalentFlow AI Wins
Naukri FastForward	**₹3,500 to ₹9,000** (one-time fee)	Resume highlighting in recruiter searches, email blast to consultancies. Zero transparency.	Naukri causes massive spam from unverified consultancies. TalentFlow sends verified dispatches directly to employers with transparent audit logs.
LinkedIn Premium India	**₹1,550 to ₹2,400** per month	5 InMails per month, who viewed your profile, salary insights.	LinkedIn gives no automated ATS dispatch, no bidirectional Gmail sync, and charges 3x more per month without solving the application grind.
Instahyre / Cutshort	**Free for candidates** (monetizes HRs)	Curated tech jobs. Candidate must wait passively for recruiters to reach out.	Passive waiting takes months. TalentFlow is active and candidate-controlled: 1-click applies + automated follow-up sequences.
