ASHUTOSH KUMAR

TECH PROCESS SPECIALIST | MARKETING OPERATIONS (EMAIL & WEBOPS)

New Delhi, India | +91 9310681373 | kumar.ashu872@gmail.com | **linkedin.com/in/kumarashu872**

PROFESSIONAL SUMMARY

Technical Process Specialist & Frontend Engineer with 8+ years of enterprise experience driving end-to-end digital campaign lifecycles (Planning → Development → QA → Deployment) and web operations across global stakeholders, including Samsung SDS, Cisco, and Wondrfly. Proven track record acting as the primary gateway for inbound technical requests, triaging Jira/ClickUp tickets against standard operating procedures (SOPs), and resolving front-line issues to protect Engineering and SME (L2) bandwith. Expert in responsive HTML email templating, table-based layouts, cross-client rendering QA, and WCAG accessibility standards. Advanced practitioner in leveraging Cursor AI and Claude for accelerated root-cause defect investigation, test generation, and technical documentation lookup. Awarded a 97/100 performance rating at Samsung SDS for operational precision, strict SLA adherence, and zero-defect execution.

CORE COMPETENCIES & TECHNICAL SKILLS

Campaign & Email Ops:	End-to-End Campaign Lifecycle (Planning → Build → QA → Launch), Cross-Client Responsive HTML Email Templating, Table-Based Email Architectures, Modular Email Layouts, Rendering QA Across Email Clients
Process & Gateway Support:	Ticket Triage & Queue Hygiene, First-Contact Technical Resolution, Protecting L2/Engineering Time, SOP Compliance, SLA Management, Stakeholder Enablement & Guidance for Marketing Managers (PMMs)
Frontend & UI Technologies:	HTML5, CSS3, SCSS/Sass, JavaScript (ES6), jQuery, Bootstrap, CSS Grid, Flexbox, Angular Material UI, Pixel-Perfect Figma-to-Code, PSD-to-HTML, Reusable UI Patterns
Testing, QA & Automation:	Playwright, Browser Automation, Targeted Regression Testing, Multi-Client UI Validation, Defect Reproduction, Impact-Based Change Analysis, Test Maintenance
Governance & Accessibility:	WCAG 2.1/2.2 AA Compliance, Section 508, Semantic HTML, Accessible Form Validation, Cross-Browser Compatibility, Core Web Vitals Awareness
Tools & AI-Assisted Ops:	Cursor AI, Claude, ChatGPT, Figma, Zeplin, InVision, Photoshop, WordPress, Git, Jira, ClickUp, VS Code, Agile/Scrum Sprint Workflows, Code & Asset Reviews

PROFESSIONAL EXPERIENCE

Frontend Developer (Contract) — Wondrfly **Sep 2025 – Present**

- Manage technical campaign and web asset production end-to-end, translating complex Figma designs into responsive, accessible, pixel-perfect digital experiences using HTML5, SCSS, JavaScript, and Angular Material UI.
- Architected an impact-based bug validation and ticket triage workflow correlating task context, Git change analysis, and targeted Playwright suites, focusing verification on impacted modules and saving substantial team review time.
- Serve as technical gatekeeper for incoming change requests and defect reports, conducting first-level investigation to resolve issues at point-of-contact and shielding senior engineering bandwidth.
- Contribute to automated Playwright test suites to validate critical user and landing page conversion paths, catching regressions prior to production release.
- Leverage AI-assisted tooling (Cursor AI, Claude) to accelerate root-cause bug isolation, automate test script generation, verify bug fixes, and expedite technical documentation lookup.
- Partner cross-functionally with Product, QA, and Marketing stakeholders to ensure full alignment with WCAG accessibility, brand consistency, and cross-browser performance standards.

Frontend Developer (Freelance) — Multiple Clients **Mar 2023 – Aug 2025**

- Delivered end-to-end web publishing, responsive landing pages, and digital campaign collateral for startups and commercial brands, including Tripknock, Tripomate, and Urja for Women.
- Managed the complete technical delivery lifecycle from asset intake (Figma, PSD) to standards-compliant, SEO-friendly HTML/CSS production, testing, and deployment.
- Provided clear technical advisory to non-technical business founders and marketing owners, scoping requirements, troubleshooting rendering discrepancies, and delivering post-launch operational support.

PROFESSIONAL EXPERIENCE (CONTINUED)

Assistant Manager - Web Publisher — Samsung SDS **Sep 2022 – Mar 2023**

- Spearheaded digital publishing operations for enterprise Samsung HQ web platforms, enforcing strict brand guidelines, design system compliance, and accessibility standards.
- Acted as primary technical operational gateway for global stakeholders and regional marketing units, reviewing incoming campaign requests, triaging tickets, and executing rapid updates within strict enterprise SLAs.
- Maintained rigorous QA standards across high-visibility platform releases, earning an exceptional **97/100 performance rating** for quality, precision, and reliable delivery.

Web Publisher & Designer — Experience Commerce (Samsung SDS Client) **Aug 2021 – Sep 2022**

- Converted Zeplin specifications and technical brief documents into enterprise-ready web pages for core Samsung SDS digital platforms.
- Conducted end-to-end multi-device and cross-browser quality assurance to safeguard frontend standards and prevent production defects.
- Demonstrated outstanding operational reliability and compliance with enterprise publishing SOPs, earning direct transition to an on-role position with Samsung SDS.

UI/UX & Frontend Developer — Mindrops **Aug 2020 – Aug 2021**

- Engineered custom, responsive HTML email templates utilizing robust table-based layouts to ensure flawless rendering across major email clients (Gmail, Outlook, iOS Mail).
- Authored accessible, lightweight HTML/CSS markup from design mockups, resolving multi-device display inconsistencies and form validation defects.
- Collaborated with client campaign managers to debug formatting errors, update dynamic content blocks, and streamline template delivery.

Associate Software Engineer — Infinity Labs India (Cisco Client) **Dec 2018 – Jul 2020**

- Engineered frontend UI components for the Cisco Business Process Automation (BPA) Portal and developed UI screens for Cisco SD-WAN.
- Built functional prototypes and production components using HTML, CSS, Bootstrap, and Angular Material UI following enterprise UI systems.
- Supported workflow automation initiatives designed to streamline operational tasks and reduce manual ticket overhead for network engineering teams.

Frontend Developer — Codifier Technologies **Nov 2016 – Jun 2018**

- Constructed, tested, and published cross-client verified HTML email templates and responsive WordPress landing pages from Photoshop (PSD) designs.
- Executed comprehensive pre-send email rendering checks to guarantee visual consistency and link accuracy across desktop, web, and mobile viewports.

SELECTED PROJECTS

Enterprise Platforms & Process Portals

• **Samsung SDS Platforms:** Metadata Platform & Annual General Meeting (AGM) Platform.
• **Cisco Enterprise Systems:** Business Process Automation (BPA) Portal & SD-WAN UI interfaces.

Commercial & Campaign Websites

Mindrops, Codifier, Wondrfly, Tripknock, Tripomate, Buddha Trail, Urja for Women, MSP Asia, Toplad, Address Home, and EZR.

EDUCATION

Master of Computer Applications (MCA) **2013 – 2016**
Guru Gobind Singh Indraprastha University, New Delhi

Bachelor of Computer Applications (BCA) **2010 – 2013**
Sikkim Manipal University

HONORS & RECOGNITION

> **97/100 Performance Rating — Samsung SDS:** Recognized for exceptional operational precision, code quality, strict adherence to enterprise delivery SLAs, and zero-defect execution.
